NetSupport Notify
Licenses

We work within the
Corporate Sector

How is the software currently being used in your organization?

NetSupport Notify is deployed house-wide across our medical center and is being used to send scheduled reminders to staff, schedule downtime messages and ad-hoc/urgent messages as needed.

The challenges we were trying to solve:

We had specific requirements for the notification solution we wanted to employ. We were trying to find a product to reach all desktops and Citrix clients, that was centrally managed and that had flexible scheduling options.

Why did you choose our product?

- | | |
|--|--|
| <input checked="" type="checkbox"/> Cost | <input checked="" type="checkbox"/> Features |
| <input checked="" type="checkbox"/> Easy to use | <input type="checkbox"/> Security |
| <input type="checkbox"/> Platform support | <input type="checkbox"/> Other |
| <input checked="" type="checkbox"/> Recommendation | |

Initially, we had a home-grown notification solution and went with NetSupport based on a recommendation. Our interim CIO at the time recommended NetSupport Notify, and, after looking at the demo, the choice was easy.

How/where has NetSupport added value?

- Saved money
- Increased productivity
- Saves time
- Flexibility
- Performance
- Easy to use
- Other

NetSupport Notify is a great product. It's easy to install and maintain; a straightforward but very powerful tool.

Would you recommend NetSupport?

- Yes No
